- A. AR 600-8-2 (Suspension of Favorable Personnel Actions (Flag)), 11 May 16.
 - B. AR 601-280 (Army Retention Program), 1 Apr 16.
 - C. MILPER Message 17-159, 19 May 17, subject: Immediate Reenlistment Prohibition (IMREPR) Code.
1. This MILPER message supersedes MILPER Message 17-159 and will expire no later than one year from date of issue.
 2. This message applies to Regular Army, enlisted Soldiers only. The RETAIN system is the only system for making IMREPR code updates other than IMREPR codes 9B, 9E, 9V, and 9Z, which are controlled by electronic Military Personnel Office (eMILPO) flagging actions.
 3. IMREPR code accuracy not only affects retention, it also impacts reclassification, reassignment, promotion, awards and decorations, attendance at civilian or military schooling, retirement, and Family member travel to overseas commands.
 4. All commands must monitor RETAIN and the Favorable Actions Management Report (AAA-095) in eMILPO for IMREPR inaccuracies. Career Counselors will complete timely submission and processing of IMREPR code transactions in accordance with AR 601-280, para 2-6m(13). Effective communication between Career Counselors, the command, and the G1/S1 will produce an informed and proactive working environment, greatly improving data accuracy. The codes displayed in eMILPO and the Total Army Personnel Data Base (TAPDB) will be managed by priority as listed below.
 5. Precedence is established with the lowest number identifying the highest disqualification. The above-listed IMREPR codes and priority precedence levels are approved by the Director of Military Personnel Management (DMPM), Army G1. Career Counselors will use these codes to identify Soldiers with a reenlistment disqualification.
